

## Supporting Asset Managers with Reliable Door Solutions Since 2004

At The Doorman, we've built a strong reputation for providing comprehensive support to asset managers across Central and Western New South Wales. With our expertise and commitment to service, we help you keep your facilities well-maintained and compliant, ensuring smooth operations for your clients.

### *Services Tailored for Asset Managers:*

- Asset Data Collection
- Preventative Maintenance
- Emergency Callouts
- Obligation-Free Advice & Quotes
- Supply & Install Services

We understand that your priority is maintaining the value and functionality of your assets. That's why we offer fixed-rate cards for scheduled and unscheduled work over a fixed period, giving you predictability in managing your maintenance budgets.

### *Detailed Reporting & Compliance*

Our team of technicians are trained and inducted to comply with your specific site and business requirements. Whether you need standard reports or custom documentation, we provide:

- Asset Collection Reports
- Service Reports
- Insurance Inspection Reports
- Inspection Test Plans

After every inspection or service, we provide detailed reports noting any additional work required. These are followed by a comprehensive quote outlining the issue, the specific door or site, and a proposed scope of work. All work is conducted only after your approval, ensuring full transparency and control.

### *Why Choose The Doorman?*

With prompt, reliable response times and a strong understanding of the needs of asset managers, we ensure your assets are properly maintained and compliant with safety and performance standards. Our partnership approach ensures that your clients' properties are in the best hands.
